

## "The Answer" SOLUTION

Fill in the squares with integers from 1 through 25 (inclusive). The sum of every row, column, and both 5-square diagonals (top left to bottom right, top right to bottom left) must be 65. Once all numbers are filled in, use number-to-letter in the bottom row to spell out the answer:

<b>15</b>	<b>10</b>	<b>25</b>	<b>8</b>	<b>7</b>
<b>2</b>	<b>22</b>	<b>5</b>	<b>12</b>	<b>24</b>
<b>9</b>	<b>3</b>	<b>13</b>	<b>23</b>	<b>17</b>
<b>20</b>	<b>14</b>	<b>21</b>	<b>4</b>	<b>6</b>
<b>19</b> <sub>=S</sub>	<b>16</b> <sub>=P</sub>	<b>1</b> <sub>=A</sub>	<b>18</b> <sub>=R</sub>	<b>11</b> <sub>=K</sub>
